

ZERO GENERATION OF WASTEWATER BY CORE METAL FINISHING OPERATIONS CERTIFICATION

City of San Diego Public Utilities Dept
Industrial Wastewater Control Program
9192 Topaz Way, San Diego, CA 92123-1119
Tel (858) 654-4100 Fax (858) 654-4110

Applicability: These instructions apply to any industry whose Industrial User Discharge Permit Attachment B, Self Monitoring and Reporting Requirements, includes "Certify zero generation by core MF operation". To report compliance with this requirement, the following statement must be submitted, signed as required in the permit under STANDARD CONDITIONS, **Signatory Requirements**.

Disposal

For information regarding the lawful disposal of hazardous wastes, refer to "Hazardous Waste Requirements", a bulletin available from the County of San Diego Department of Environmental Health, Hazardous Materials Division (HMD). If you generate small volumes of waste, you may wish to contact HMD duty desk (phone 619-338-2231) to determine the storage time allowed prior to disposal pursuant to state regulations.

Notification of Accidental Discharges

Accidental discharge of any pollutant having a flash point of less than 140 degrees Fahrenheit, any toxic pollutant, or any pollutant which may generate toxic gases, vapors, or fumes when mixed with water, must be reported to this office immediately. See STANDARD CONDITIONS, **D. Accidental Discharge Report**, in your permit, for further details of notification requirements.

ZERO GENERATION CERTIFICATION STATEMENT

Based on my inquiry of the person or persons directly responsible for managing compliance with the permit limitations, I certify that to the best of my knowledge and belief, **no EPA regulated wastewater was generated by any of the six core metal finishing operations** during the monitoring period covered by this report. I am aware of the potential for significant penalties for submission of false information, including the possibility of fines and imprisonment for knowing violations. I will retain copies of all manifests and/or waste hauler receipts on-site for no less than 3 years and make them available to IWCP personnel upon request.
